Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and summary prospectuses, which can be obtained from a financial professional and should be read carefully before investing.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.

Small-company stocks entail additional risks, and they can fluctuate in price more than larger company stocks.

Allocations may not achieve investment objectives. The portfolios' risks are directly related to the risks of the underlying funds.

There may have been periods when the results lagged the index(es). The indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index.

Portfolios are managed, so holdings will change.

Totals may not reconcile due to rounding.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher.

Please see capitalgroup.com for more information. For more information on fee waivers and expense reimbursements, visit capitalgroup.com.

Results for certain funds with an inception date after the share class inception also include hypothetical returns because those funds' shares sold after the funds' date of first offering.

American Funds Portfolio SeriesSM

Objective-based: Aligned with three broad objectives – **preservation, balance and appreciation** – the funds offer a structured approach with broad diversification.

Flexible: Designed to help investors pursue a wide range of needs and goals, the funds can be used in combination within an objective-based framework or individually, based on an investor's time frame, risk tolerance and other factors.

Trusted: Each fund of funds represents a blend of individual American Funds with a proven track record and investment management process.

Actively monitored: An oversight committee meets regularly to review the funds' results to keep holdings aligned with fund objectives. The committee will also determine whether the funds need to be rebalanced.

¹Expense ratios are as of each fund's prospectus available at the time of publication.

²The portfolio managers shown are as of each fund's prospectus available at the time of publication.

³Portfolio series funds are monitored; allocations and funds may change. Allocations and underlying funds are subject to the oversight committee's discretion and will evolve over time. Underlying funds may be added or removed at any time. Visit capitalgroup.com for current allocations.

⁴Returns for less than one year are not annualized, but calculated as cumulative total returns.

⁵YTD (year-to-date return): the net change in the value of the portfolio (in percentage terms) from January 1 of the current year to the date shown above. In cases where the fund was first offered in the current year, the net change in the value of the portfolio (in percentage terms) is shown since fund inception.

⁶Figures are based on holdings of the underlying funds, if applicable, as of date shown.

⁷Cash and equivalents includes short-term securities, accrued income and other assets less liabilities. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.

TERMS & DEFINITIONS

American Funds Growth Portfolio Index Blend: The American Funds Growth Portfolio Index Blend is a composite of the cumulative total returns for the following indexes with their respective weightings: 75% S&P 500 Index and 25% MSCI All Country World Index ex USA. The blend is rebalanced monthly. S&P 500 Index is a market-capitalization-weighted index based on the results of approximately 500 widely held common stocks. MSCI All Country World Index ex USA is a free-float-adjusted market-capitalization-weighted index that is designed to measure equity market results in the global developed and emerging markets, excluding the United States. The index consists of more than 40 developed- and emerging-market country indexes. Results reflect dividends gross of withholding taxes through December 31, 2000, and dividends net of withholding taxes thereafter. The indexes are unmanaged, and results include reinvested distributions but do not reflect the effect of sales charges, commissions, account fees, expenses or U.S. federal income taxes.

MSCI All Country World Index (ACWI) ex USA: MSCI All Country World ex USA Index is a free float-adjusted market capitalization weighted index that is designed to measure equity market results in the global developed and emerging markets, excluding the United States. The index consists of more than 40 developed and emerging market country indexes. Results reflect dividends gross of withholding taxes through December 31, 2000, and dividends net of withholding taxes thereafter. This index is unmanaged, and its results include reinvested dividends and/or distributions but do not reflect the effect of sales charges, commissions, account fees, expenses or U.S. federal income taxes.
