\* Overall rating based on risk-adjusted returns out of 585 Small Blend funds as of 12/31/22.

Total Strategy AUM/AUA <sup>1,2</sup>	\$1,961.2M
Strategy Inception <sup>1</sup>	1/1/08

### OBJECTIVE

The Fund seeks long-term capital appreciation.

### INVESTMENT PHILOSOPHY

We believe:

- Our in-depth proprietary research process seeks to uncover investments that have the potential to offer consistent returns over the long term while emphasizing capital preservation.
- We conduct bottom-up research, looking for management teams that are focused on sustainable and/or improving Return On Invested Capital (ROIC) with low embedded expectations.
- These efficient allocators of capital typically service niche markets and we believe have defendable competitive advantages.

CHARACTERISTICS	SBRVX & SBHVX	Russell 2000® Value
Fund Assets <sup>2</sup>	\$543.1M	—
Weighted Avg. Market Cap	\$3,072M	\$2,346M
Median Market Cap	\$2,763M	\$803M
Price/Earnings (1 yr trailing)	15.1x	8.8x
Active Share	90.9%	—
Total Number of Holdings	83	1,383

### KEY FEATURES

- Utilize a fundamental, bottom-up approach designed to identify companies with improving business models that have the capability to generate significant improvement in ROIC over the investment horizon.
- Utilize proprietary screens to limit the universe to companies with low embedded expectations; leverage our investment process with the goal of identifying catalysts of change for improved returns while aiming to reduce risk.

### PERFORMANCE OF A \$10,000 INVESTMENT

\$'s shown in thousands. The chart above represents historical performance of a hypothetical investment of \$10,000 in the Fund over the past 10 years (or for the life of the Fund if shorter). Performance calculations are as of the end of the quarter. **Past performance does not guarantee future results.** Performance information for the Retail Class shares prior to their inception is based on the performance of the Institutional Class. This chart does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

### ANNUALIZED PERFORMANCE (%)

As of 12/31/22	MRQ	YTD	1 yr	3 yrs	5 yrs	10 yrs	SI
Retail Class (SBRVX)	11.18	-14.76	-14.76	1.76	4.60	—	6.78
Institutional Class (SBHVX)	11.28	-14.65	-14.65	1.87	4.73	—	6.93
Russell 2000® Value	8.42	-14.48	-14.48	4.70	4.13	—	6.77

### CALENDAR YEAR PERFORMANCE (%)

	2022	2021	2020	2019	2018	2017	2016
Retail Class (SBRVX)	-14.76	16.47	6.14	24.45	-4.52	10.78	22.46
Institutional Class (SBHVX)	-14.65	16.62	6.22	24.62	-4.38	10.95	22.64

EXPENSE RATIOS	SBRVX	SBHVX
Gross	1.04%	0.97%
Net	1.04%	0.97%

Returns shown for less than one year are cumulative. MRQ=Most Recent Quarter. Performance data quoted represents past performance and does not guarantee future results. Performance information for the retail class shares prior to their inception is based on the performance of the institutional class, adjusted for the difference in Retail Class and Institutional Class expenses. Retail Class imposes higher expenses than Institutional Class. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Performance data current to the most recent month-end may be obtained by visiting [www.sbhffunds.com](http://www.sbhffunds.com), or by calling (800) 392-2673.

From 5/1/22 until at least 4/30/23, the Adviser has contractually agreed to waive the investment advisory and/or administration fees and/or to reimburse other expenses (not including acquired fund fees and expenses, taxes, brokerage expenses, and extraordinary expenses), so that the ratio of expenses of average net assets as reported in the Fund's Financial Highlights will be no more than 1.14% and 0.99% to the Fund's Retail Class and Institutional Class, respectively, for such period. This agreement may not be terminated or modified by the Adviser prior to 4/30/23 without the approval of the Board of Trustees.

<sup>1</sup>AUM/AUA: Assets Under Management/Assets Under Advisement. Model UMA assets of \$0 are included in the AUA portion of the AUM/AUA total. Separately managed accounts are not distributed by Ultimus Fund Distributors, LLC. <sup>2</sup>Data as of 9/30/22. <sup>3</sup>Turnover is annualized.

**Weighted Avg. Mkt Cap** is the average of the market capitalizations of the companies in the portfolio weighted by the size of each company's position within the portfolio. **Median Market Cap** is the midpoint of market capitalization. **Price/Earnings** is a stock's per share price divided by its per share earnings over a 12-month period. **Active Share** is a measure of the percentage of stock holdings in a manager's portfolio that differs from the benchmark index. **Turnover** is the percentage of a portfolio that is sold in a particular year. **Beta** is a measure of a fund's sensitivity to market movements. **Standard Deviation** is a statistical measure of the historical volatility of a fund. **Tracking Error** is a measure of how closely a fund follows the index to which it is benchmarked. **Upside Capture** is the statistical measure of an investment manager's overall performance in up-markets. **Downside Capture** is a statistical measure of an investment manager's overall performance in down-markets. **Sharpe Ratio** is the average return earned in excess of the risk-free rate per unit of volatility or total risk.

The **Russell 2000® Value Index** is a market-weighted total return index that measures the performance of companies within the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values than the threshold determined by Frank Russell Company. An investor cannot invest directly in an index.

**RISKS:** An investment in the Funds involves risk, including possible loss of principal. The principal risks of investing in Funds include equity, market, management and non-diversification risks. The market value of a security or instrument may decline due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally.

**Value Investing Risk:** The value approach carries the risk that if the Adviser's perceptions of a company's value potential are wrong, the securities purchased may not perform as expected, causing loss that will reduce the Fund's return.

**Small-Sized Company Risk:** Investing in the securities of small-sized companies generally will be more volatile, and loss of principal could be greater than investing in the securities of larger, more established companies.

As of 12/31/22, SBRVX (Retail Class) in the Small Blend category for the three-year period received 2 stars among 585 and for the five-year period received 4 stars among 543 funds. As of 12/31/22, SBHVX (Institutional Class) in the Small Blend category for the three-year period received 2 stars among 585 funds and for the five-year period received 4 stars among 543 funds. The Morningstar Rating™ for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Morningstar Rating is for the share class specified only; ratings for other share classes will vary.
