

Fund Details

The United States Gasoline Fund® LP (UGA) is an exchange-traded security that is designed to track in percentage terms the movements of gasoline prices. UGA issues shares that may be purchased and sold on the NYSE Arca.

Objective – The investment objective of UGA is for the daily changes in percentage terms of its shares' net asset value ("NAV") to reflect the daily changes in percentage terms of the spot price of gasoline, as measured by the daily changes in the price of the futures contract on unleaded gasoline (also known as reformulated gasoline blendstock for oxygen blending, or "RBOB") for delivery to the New York harbor, traded on the NYMEX that is the near month contract to expire, except when the near month contract is within two weeks of expiration, in which case it will be measured by the futures contract that is the next month contract to expire (the "Benchmark Futures Contract"), less UGA's expenses.

Target – Gasoline is one of the most important physical commodities in the global economy. Gasoline futures are one of the most actively traded futures contracts and represent the primary US benchmark for gasoline prices.

Portfolio – The portfolio consists of listed gasoline futures contracts and other gasoline related futures contracts and may consist of forwards and swap contracts. These investments will be collateralized by cash, cash equivalents and US government obligations with remaining maturities of two years or less.

Performance

	1 Mo	3 Mo	YTD	1 Yr	5 Yr	10 Yr	Since Inception Cumulative (2/26/2008)	Since Inception Annualized (2/26/2008)
UGA (NAV)	3.48%	13.42%	45.59%	45.59%	13.28%	0.23%	19.50%	1.21%
Share Price	4.06%	13.63%	46.34%	46.34%	13.48%	0.25%	19.88%	1.23%
Benchmark	3.27%	12.86%	44.99%	44.99%	12.85%	0.31%	23.89%	1.45%

The performance quoted represents past performance, does not guarantee future results and current performance may be lower or higher than the data quoted.

The Fund's NAV is calculated by dividing the value of the Fund's total assets less total liabilities by the number of shares outstanding. Share Price returns are based on closing prices for the Fund and do not represent the returns an investor would receive if shares were traded at other times.

UGA seeks to manage its portfolio such that the average daily changes in its NAV over any rolling 30-day period is within 10% +/- of the average daily change in the price of the benchmark.

This investment is not suitable for all investors. Funds that focus on a single sector generally experience greater volatility.

Fund Benefits

- UGA has features including, intra-day pricing, and market, limit, and stop orders.
- UGA offers commodity exposure without using a commodity futures account.
- UGA provides portfolio holdings, market price, NAV and TNA on its website each day.

United States Gasoline Fund, LP

Total Net Assets	\$86,636,693
CUSIP	91201T102
Primary Exchange	NYSE Arca
Management Fee	0.60%
Total Expense Ratio	0.96%

Important Considerations

- **UGA® is not a mutual fund or any other type of Investment Company within the meaning of the Investment Company Act of 1940, as amended, and UGA is not subject to regulation thereunder.**
- **This investment is not suitable for all investors.**
- **Commodity trading is highly speculative. Commodity prices and futures generally are volatile and are not appropriate for all investors. UGA is speculative and involves a high degree of risk. UGA is likely to be volatile and could suffer from periods of prolonged decline in value. An investor may lose all or substantially all of an investment in UGA. Funds that focus on a single sector generally experience greater volatility.**
- **The Fund is not operated in a fashion such that its NAV will reflect the percentage change of the price of any particular futures contract as measured over a time period greater than one day. It is not the intent to operate the Fund in a fashion such that its per share NAV will equal, in dollar terms, the spot price of any particular futures contract.**
- **There is the risk that the daily changes in the price of UGA's shares on the NYSE Arca will not closely track the changes in the spot price of gasoline. This could happen if the price of shares traded on the NYSE Arca does not correlate closely with UGA's NAV; the changes in UGA's NAV do not closely correlate with the changes in the price of the Benchmark Futures Contract; or the changes in the price of the Benchmark Futures Contract do not closely correlate with the changes in the cash or spot price of gasoline. If these correlations do not exist, then investors may not be able to use UGA as a cost-effective way to invest indirectly in gasoline or as a hedge against the risk of loss in gasoline-related transactions.**
- **UGA could terminate at any time and cause the liquidation of your investment which may upset the overall maturity and timing of your investment portfolio. An unanticipated number of redemption requests during a short period of time could have an adverse effect on the NAV or UGA.**
- **UGA may not earn trading gains sufficient to compensate for the fees and expenses that it must pay, and as such, it may not earn any profit. You should not invest in UGA if you will need cash distributions from UGA to pay taxes on your share of income and gains of UGA, if any, or for any other reason.**
- **Shares of UGA may be purchased or sold throughout the day through any brokerage account which will result in typical brokerage commissions. Investors buy and sell shares in the secondary market (i.e., not directly from UGA). Only authorized purchasers may trade directly with UGA in minimum blocks of 50,000 shares.**
- **K-1s and K-3s will be available for tax reporting purposes. You may download them electronically through a link on each fund's website.**
- **USCF has voluntarily agreed to pay certain expenses typically paid by UGA that exceeds 0.15% of NAV on an annualized basis. USCF may discontinue this arrangement at any time, which could negatively impact an investment in UGA.**
- **The United States Gasoline Fund is distributed by ALPS Distributors, Inc., administered by The Bank of New York Mellon and United States Commodity Funds LLC is the Sponsor.**
- **ALPS Distributors, Inc. is not affiliated with The Bank of New York Mellon.**
- **UGA United States Gasoline Fund® and Design mark are registered trademarks of The United States Commodity Funds LLC. The United States Commodity Funds® is a registered trademark. All rights reserved.**
- **© Copyright 2007-2022 United States Gasoline Fund. All rights reserved.**
- **Shares of UGA are not FDIC insured, may lose value and have no bank guarantee.**
