Daily return during 1Q 2023

Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Performance data current to the most recent month-end is available at Profunds.com or by calling 1-888-776-3637.

For standardized returns year-to-date, and as of the most recent calendar quarter-end, and annualized month-end, see performance. Returns include the reinvestment of dividends and capital gains.

¹Contractual waiver effective until November 30, 2023. Without such a waiver of fees, the total returns would have been lower.

Narrowly focused investments typically exhibit higher volatility.

Many ProFunds routinely employ leveraged investment techniques that magnify gains and losses, and result in greater volatility in value. Each geared (leveraged or inverse) ProFund seeks a return that is a multiple (e.g., 2x, -1x) of the return of an index or other benchmark (target) **for a single day**. Due to the compounding of daily returns, geared ProFunds' returns over periods other than one day will likely differ in amount and possibly direction from the target return for the same period. These effects may be more pronounced in funds with larger or inverse multiples and in funds with volatile benchmarks. Investors should monitor their ProFunds holdings consistent with their strategies, as frequently as daily. For more on risks, please read the prospectus.

ProFunds are not suitable for all investors because of the sophisticated techniques the funds employ. Investing involves risk, including the possible loss of principal. ProFunds entail certain risks, including risk associated with the use of derivatives (swap agreements, futures contracts and similar instruments), imperfect benchmark correlation, leverage and market price variance, all of which can increase volatility and decrease performance. For more on correlation, leverage and other risks, please read the prospectus. There is no guarantee any ProFund will achieve its investment objective.

All ProFunds are subject to active investor risk. There are no restrictions on the size and frequency of trades and no transaction fees. The frequent exchanges our policies permit can decrease performance, increase expenses and cause investors to incur tax consequences.

Carefully consider the investment objectives, risks, charges and expenses of ProFunds before investing. A prospectus or summary prospectus with this and other information may be obtained at Profunds.com or by calling 1-888-776-3637. Read them carefully before investing.
