KEY RISKS

The value of an investment in the Fund can go down as well as up and possible loss of principal is a risk of investing. Investments in international market securities may involve risks such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. The Fund invests in holdings denominated in foreign currency, and is exposed to the risk that the value of the foreign currency will increase or decrease. The Fund invests primarily in equity securities, which may result in increased volatility. Investments in a single-country fund may be subject to a higher degree of market risk than diversified funds because of concentration in a specific country. Pandemics and other public health emergencies can result in market volatility and disruption. These and other risks associated with investing in the Fund can be found in the Prospectus.

MATTHEWS ASIA

Matthews Asia believes in the long-term growth of Asia, one of the world's fastest-growing regions. Since 1991, we have focused our efforts and expertise in these countries, investing through a variety of market environments. Matthews Asia employs a bottom-up, fundamental investment philosophy with a focus on long-term investment performance. As of 30 April 2023, Matthews Asia had US\$12.9 billion in assets under management.

- Holdings may combine more than one security from the same issuer and related depositary receipts.
- Percentage values in data are rounded to the nearest tenth of one percent; the values may not sum to 100% due to rounding. Percentage values may be derived from different data sources and may not be consistent with other Fund literature.
- Equity market cap of issuer.
- Active Share is calculated by taking the absolute value of the difference between portfolio holdings and benchmark weights, summing all of these differences, and dividing by two. The calculation will result in an active share number between 0%, which indicates the portfolio perfectly replicates the benchmark, and 100%, which indicates there is no overlap whatsoever between the portfolio and the index. Active Share was calculated including cash held in the Fund.
- The P/E Ratio is the share price of a stock as of the report date, divided by the forecasted earnings per share for a 12-month period (FY1) or a 24-month period (FY2). For the Fund, this is the weighted harmonic average estimated P/E ratio of all the underlying stocks in the Fund, excluding negative earners. There is no guarantee that the composition of the Fund will remain unchanged, or that forecasted earnings of a stock will be realized. Information provided is for illustrative purposes only.
- A measure of the market's expectations of a firm's future financial health. Because this measure deals with cash flow, the effects of depreciation and other non-cash factors are removed. Similar to price/earnings ratio, this measure provides an indication of relative value.
- Price-to-Book Ratio (P/B Ratio) is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued.
- Return on Equity (ROE) is the amount of net income returned as a percentage of shareholders equity. Return on equity measures a corporation's profitability by revealing how much profit a company generates with the money shareholders have invested, and is calculated as net income divided by shareholder's equity.
- Earnings Per Share (EPS) is the amount of annual profit (after tax and all other expenses) attributable to each share in a company. EPS is calculated by dividing profit by the average number of shares in a company. Earnings growth is not a measure of a fund's future performance.
- Sourced from Sustainalytics and MSCI.
- This represents companies that generate revenue from tobacco manufacturing exposure to or production or that generate more than 50% of revenue from tobacco retail. Sourced from Sustainalytics.
- This represents companies that have been assessed as failing to comply with the 10 United Nations Global Compact Principles by ISS-ESG Norms-Based-Research. Different ESG research providers may come to different conclusions on the severity of the violation.
- The factor identifies the normalized portfolio's total weighted average (scope 1 + scope 2) carbon emissions intensity, using the most recently available data (emissions data from 2020, 2021). Carbon intensity represents the issuer's total carbon emissions per EUR million of revenue (tCO2e divided by EUR million in revenue). Sourced from ISS ESG. Where not covered by external data providers, we have tried to source these data points.
- Represents the weighted average ratio of female board members in investee companies.

The MSCI Japan Index is a free float-adjusted market capitalization—weighted index of Japanese equities listed in Japan. Index is for comparative purposes only and it is not possible to invest directly in an index.

IMPORTANT INFORMATION

This is a marketing communication. This document is not a Prospectus/Offering Document and does not constitute an offer to the public. No public offering or advertising of investment services or securities is intended to have taken effect through the provision of these materials. Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before making an investment decision. The current prospectus, Key Information Document or Key Investor Information Document, or other offering documents ("Offering Documents") contain this and other information. Please refer to the Offering Documents before making any final investment decisions.

The Fund is a sub-fund of Matthews Asia Funds, an umbrella fund, with segregated liability between sub-funds, established as an open-ended investment company with variable capital and incorporated with limited liability under the laws of Luxembourg. It is authorised by the Commission de Surveillance du Secteur Financier (CSSF) as a UCITS and is registered for public offer and sale in certain jurisdictions only. Not all share classes are registered in each jurisdiction. **GENERALLY NOT FOR SALE IN THE U.S. OR TO U.S. PERSONS.**

Matthews Asia is the brand for Matthews International Capital Management, LLC and its direct and indirect subsidiaries.

This material does not constitute or contain an offer, solicitation, recommendation or investment advice with respect to the purchase of the Funds described herein or any security. Prospective investors should carefully review the information contained in the Offering Documents and consult their professional legal, tax and financial advisers as to the suitability of any investment in light of their particular circumstances and applicable citizenship, residence or domicile, including any tax or foreign exchange control restrictions. The Fund's shares may not be sold to citizens or residents of the United States or in any other state, country or jurisdiction where it would be unlawful to offer, solicit an offer for, or sell the shares. No securities commission or regulatory authority has in any way passed upon the merits of an investment in the Fund or the accuracy or adequacy of this information or the material contained herein or otherwise. Neither this factsheet nor the Offering Documents have been approved in any jurisdiction where the Fund has not been registered for public offer and sale. Application for shares may only be made by way of the Fund's most recent Offering Documents. To obtain the Offering Documents, please contact Matthews Asia or your financial professional. Please read the Offering Documents carefully before investing. Fees and expenses vary among Funds and share classes.

The information contained herein has been derived from sources believed to be reliable and accurate at the time of compilation, but no representation or warranty (express or implied) is made as to the accuracy or completeness of any of this information. Matthews Asia and its affiliates do not accept any liability for losses either direct or consequential caused by the use of this information.

Portfolio characteristics for the Fund may vary from time to time from what is shown. It should not be assumed that any investment in the securities listed was or will be profitable.

Matthews International Capital Management, LLC is the Investment Manager to the Matthews Asia Funds, and is a U.S.-based investment adviser registered with the U.S. Securities and Exchange Commission who has not represented and will not represent that it is otherwise registered with any other regulator or regulatory body. Registration does not imply a certain level of skill or training.
