

Mirova International Sustainable Equity Fund

Q1 • March 31, 2023

Fund Highlights

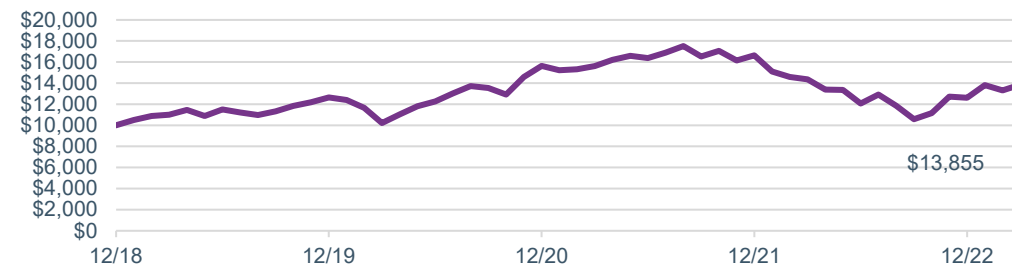

- The Mirova International Sustainable Equity Fund is a high conviction all-cap international equity strategy focused on integrating sustainability, with the goal of outperforming the MSCI EAFE Index.
- The managers take a thematic approach, investing in companies that should benefit from their exposure to long-term trends shaping the economy over the next decade across demographic, environmental, technological and governance transitions
- A strict buy and sell discipline focused on fundamental quality, sustainability, and valuation leads to a low turnover, high active share portfolio of ~40-60 names
- Aims to maximize exposure to companies with positive impact on the UN Sustainable Development Goals ('SDGs') and maintain coherence with a 2°C global warming scenario
- Draws on the expertise of Mirova's multi-disciplinary investment specialists with complementary backgrounds and Mirova's ESG Research Team, fully dedicated to thematic and ESG research

Investment return – Hypothetical growth of \$10,000 investment³

Performance data shown represents past performance and is no guarantee of, and not necessarily indicative of, future results. Total return and value will vary, and you may have a gain or loss when shares are sold. Current performance may be lower or higher than quoted. For most recent month-end performance, visit im.natixis.com.

Performance for other share classes will be greater or less than shown based on differences in fees and sales charges. You may not invest directly in an index.

[†]Performance for periods less than one year is cumulative, not annualized. Returns reflect changes in share price and reinvestment of dividends and capital gains, if any.

¹ As of the most recent prospectus, the investment advisor has contractually agreed to waive fees and/or reimburse expenses (with certain exceptions) once the expense limitation of the fund has been exceeded. This arrangement is set to expire on 04/30/2023. When an expense limitation has not been exceeded, the gross and net expense ratios and/or yields may be the same. ² The calendar year performance shown for 2018 is a partial year of performance since inception on 12/28/18 through 12/31/18. ³ This chart tracks the hypothetical growth of a \$10,000 investment in Class Y shares. Investment returns would be lower for Class A share investments, which are subject to higher fees and may also include sales charges.

Not all share classes are available for purchase by all investors. Class Y shares are available to institutional investors with a minimum initial investment of \$100,000 and through certain wrap-fee programs, retirement plans and investment advisory accounts with no minimum. See the prospectus for more details.

Risks

Equity securities are volatile and can decline significantly in response to broad market and economic conditions.

Foreign and emerging market securities may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than US securities, due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets.

Investments in small and midsize companies can be more volatile than those of larger companies.

The Fund's Environmental, Social and Governance (ESG) investment approach could cause the Fund to perform differently compared to funds that do not have such an approach or compared to the market as a whole. The Fund's application of ESG-related considerations may affect the Fund's exposure to certain issuers, industries, sectors, style factors or other characteristics and may impact the relative performance of the Fund – positively or negatively – depending on the relative performance of such investments. **Currency exchange rates** between the US dollar and foreign currencies may cause the value of the Fund's investments to decline.

⁴ MSCI EAFE Index (Net) is a free float-adjusted market capitalization index designed to measure large and mid-cap equity performance in developed markets, excluding the U.S. and Canada. The Index includes countries in Europe, Australasia, and the Far East. ⁵ Source: GICS Sectors via FactSet Research Systems Inc. Cash and Unassigned allocations are not included. ⁶ Source: Mirova themes via FactSet Research Systems Inc. Cash allocations not included. ⁷ Active share indicates the proportion of a portfolio's holdings that are different from the benchmark. A higher active share indicates a larger difference between the benchmark and the portfolio. ⁸ P/E (Trailing) Ratio is the weighted harmonic average of the price-to-earnings (P/E) ratios of all the stocks in the portfolio. P/E ratio is the ratio of a stock's price to its earnings per share for the trailing twelve months. Does not include options. This excludes negative earnings. ⁹ P/B Ratio is the weighted harmonic average of the price-to-book (P/B) ratios of all the stocks in the portfolio. P/B ratio is the ratio of a stock's price to its book value per share. This excludes negative earnings. ¹⁰ Median market cap provides a measure of the market capitalization value of all the stocks in the portfolio. Market capitalization reflects the total market value of a company, as calculated by multiplying the current share price by the number of outstanding shares. ¹¹ The portfolio is actively managed and holdings are subject to change. References to specific securities or industries should not be considered a recommendation. Environmental, Social and Governance (ESG) opinion breakdown (%)

	Fund
Committed	29
Positive	51
Neutral	15
Risk	0
Negative	0

Committed: Contributes very favorably to achieving the SDGs

Positive: Contributes positively to achieving the SDGs

Neutral: In line with some of the SDGs, but impacts are low or unquantified

Risk: Hinders achievement of the SDGs

Negative: Strongly opposes achievement of the SDGs

Not followed: Not rated by either Mirova or ISS ESG

The ESG Opinion is designed to assess whether the investment is compatible with the UN Sustainable Development Goals (SDGs). The SDGs are a collection of 17 interlinked global goals designed to be a blueprint to achieve a better and more sustainable future for all.

The ESG Opinion is based upon the analysis of Mirova and ISS ESG, a third party. Mirova conducts its own ESG research and due diligence for companies within its investment portfolios and of potential interest. For companies within key benchmarks but outside of these categories, the team uses information from ISS ESG as a starting point, but validates and refines the analysis further. For companies outside Mirova's key benchmarks, the entire ESG analysis is performed by ISS ESG. The assessment does not guarantee a profit or protect against a loss, and does not ensure the stability or safety of the overall portfolio.
