PGIM QUANT SOLUTIONS SMALL-CAP VALUE FUND

A: TSVAX C: TRACX Z: TASVX R2: PSVDX R4: PSVKX R6: TSVQX

STYLE

Small Value

Seeks above-average capital appreciation by investing in stocks of smaller U.S. companies that may be undervalued. This Fund may be suitable for those who would like to diversify their equity portfolios with potentially undervalued small cap stocks.

Benchmark	34.52	4.22	-7.47	31.74	7.84	-12.86	22.39	4.63	28.27	-14.48

Past performance does not guarantee future results. Graph and CYP do not include the effects of sales charges and reflect reinvestment of all distributions. If sales charges were included, returns would have been lower. Holdings/allocation may vary. Largest holdings excludes cash, cash equivalents, money market funds and enhanced cash strategies. Totals may not sum due to rounding. This is not a recommendation to buy or sell any security listed.

The Fund may invest in **small-cap stocks**, which may be subject to more erratic market movements than large-cap stocks; **foreign securities**, which are subject to currency fluctuation and political uncertainty; **real estate investment trusts (REITs)**, which may be leveraged, increasing risk, and which may subject the Fund to duplicate management and/or advisory fees; and **derivative securities**, which may carry market, credit, and liquidity risks. **Diversification** does not assure a profit or loss in declining markets. These risks may increase the Fund's share price volatility. There is no guarantee the Fund's objective will be achieved.

	-0.66	-0.66	-12.96	21.01	4.55	7.22	9.50	12/31/1992

Past performance does not guarantee future results, and current performance may be lower or higher than the past performance data quoted. The investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than the original cost. Maximum sales charges: Class A, 5.5%. Due to the Fund's repositioning, performance prior to 1/15/2015 is not attributable to the Fund's current investment strategies. Other share classes may be available. For the most recent month-end performance and complete information about performance, charges and expenses, visit our website at pgiminvestments.com.

EXPENSES (%)

Class	Gross	Net	Date
A	1.15	1.09	11/30/2023
Z	0.80	0.79	11/30/2023
R6	0.67	0.67	—

Expenses are as of the most recent prospectus. Net expenses reflect expenses after fee waivers and/or expense reimbursements by PGIM Investments, if any.

The Date is the date through which PGIM Investments has agreed to waive fees or reimburse expenses, if applicable. Expenses for the current year may exceed the Net expenses listed above due to exclusions from any applicable contractual waiver or reimbursement, which may fluctuate. PGIM Investments may recoup certain waived fees or reimbursed expenses. See the prospectus for more information.

Total Fund Assets (\$mil)	393

Source: Benchmarks - Lipper Inc.; Statistics - Morningstar Inc.; Sector classification - S&P/MSCI. All other data from PGIM, Inc. (PGIM). **Total return** describes the return to the investor after net operating expenses but before any sales charges are imposed. **SEC standardized** return describes the return to the investor after net operating expenses and maximum sales charges are imposed. All returns assume share price changes as well as the compounding effect of reinvested dividends and capital gains. Returns may reflect fee waivers and/or expense reimbursements. Without such, returns would be lower. All returns 1-year or less are cumulative. Class R2 shares and Class R4 shares are only offered for sale to group retirement plans available through a retirement recordkeeper or third party administrator. Class R6 and Z shares may be available to group retirement plans and institutional investors through certain retirement, mutual fund wrap and asset allocation programs. They may also be available to institutional investors. Class Z shares may be available through fee- or commission-based retail brokerage programs of certain financial intermediaries. Class A, C, and Z shares are generally closed to new retirement plans. Please see the prospectus for additional information about fees, expenses, and investor eligibility. All data is unaudited and subject to change.

Enhanced cash strategies are variations on traditional money market vehicles. They are designed to provide liquidity and principal preservation, but with more of an emphasis on seeking returns that are superior to those of traditional money market offerings. **Average weighted market capitalization** is the average market capitalization of stocks in a fund, each weighted by its proportion of assets. The **P/E Ratio** (Source: Morningstar, Inc.) relates the price of a stock to the per-share earnings of the company. P/E is calculated using a harmonic weighted average, which excludes outliers that can easily skew results. **R-Squared** is a measure of how much of a portfolio's performance can be explained by the returns from the overall market (or a benchmark index). If a portfolio's total return precisely matched that of the overall market or benchmark, its R-squared would be 1.00. If a portfolio's return bore no relationship to the market's returns, its R-squared would be 0. R-squared is calculated based on the date that PGIM Quantitative Solutions took over management of the Fund (1/31/15). **Standard deviation** depicts how widely returns vary around its average and is used to understand the range of returns most likely for a given fund. A higher standard deviation generally implies greater volatility. **Turnover Ratio** is the rate of trading in a portfolio, higher values imply more frequent trading. Due to data availability, statistics may not be as of the current reporting period.
