

**Fund Objective**

The State Street Small/Mid Cap Equity Index Fund seeks to provide investment results that, before expenses, correspond generally to the total return of an index that tracks the performance of mid to small capitalization exchange traded U.S. equity securities.

**Process**

The Fund seeks to achieve its investment objective by investing substantially all of its investable assets in the State Street Small/Mid Cap Equity Index Portfolio ("the Portfolio"), a separate series of the State Street Institutional Investment Trust, with an identical investment objective as the Fund and that has substantially similar investment policies, strategies and risks, to the Fund. Under normal market conditions, the Portfolio invests at least 80% of its net assets (plus borrowings, if any) in stocks in the Index. The Fund is not managed according to traditional methods of "active" investment management, which involve the buying and selling of securities based upon economic, financial and market analysis and investment judgment. Instead, the Fund, using a "passive" or "indexing" investment approach, seeks to provide investment results that, before expenses, correspond generally to the total return of the Index.

**Key Features**

- Broad exposure to US small-cap and mid-cap equities
- Managed by an industry leader in index solutions

**Total Return**

Cumulative	Fund at NAV	Russell Small Cap Completeness Index
QTD	5.92%	5.88%

Maximum Sales Charge	-

**Past performance is not a reliable indicator of future performance. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Current performance may be higher or lower than that quoted. All results are historical and assume the reinvestment of dividends and capital gains. Visit [www.ssga.com](http://www.ssga.com) for most recent month-end performance. Performance of an index is not illustrative of any particular investment. It is not possible to invest directly in an index. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect capital gains and losses, income, and the reinvestment of dividends. An annualized yield that is calculated by dividing the investment income earned by the fund less expenses over the most recent 30-day period by the current maximum offering price that does not take into account expense ratio subsidizations.**

**Performance vs Benchmark**

<sup>^</sup>The Fund's investment adviser, SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM"), is contractually obligated until April 30, 2023, separately with respect to each of the Fund and the Portfolio, (i) to waive up to the full amount of the advisory fee payable by the Fund or the Portfolio, and/or (ii) to reimburse the Fund or the Portfolio to the extent that Total Annual Fund Operating Expenses (exclusive of non-recurring account fees, interest, taxes, extraordinary expenses, and distribution, shareholder servicing, and sub-transfer agency fees and, with respect to the Portfolio, acquired fund fees) exceed 0.045% of the Fund's and 0.03% of the Portfolio's average daily net assets on an annual basis. This waiver and/or reimbursement may not be terminated prior to April 30, 2023 except with approval of the Fund/Portfolio's Board of Trustees.

**Definitions:** NAV is the market value of a mutual fund's and ETFs total assets, minus liabilities, divided by the number of shares outstanding. **Price/Earnings Ratio FY1** is the closing price divided by the sum of the forecasted fiscal year earnings per share. **Price/Book Ratio** is the current market price of the stock divided by the most recently reported book value for the prior fiscal year.

The Fund's investments are subject to changes in general economic conditions, general market fluctuations and the risks inherent in investment in securities markets. Investment markets can be volatile and prices of investments can change substantially due to various factors including, but not limited to, economic growth or recession, changes in interest rates, changes in the actual or perceived creditworthiness of issuers, and general market liquidity. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on the Fund and its investments.

**Derivative investments** may involve risks such as potential illiquidity of the markets and additional risk of loss of principal.

These investments may have difficulty in liquidating an investment position without taking a significant discount from current market value, which can be a significant problem with certain **lightly traded securities**.

Investments in **small-sized, mid-sized and micro-cap companies** may involve greater risks than in those of larger, better known companies.

**Equity securities** may fluctuate in value and can decline significantly in response to the activities of individual companies and general market and economic conditions.

**Passively managed funds** invest by sampling the index, holding a range of securities that, in the aggregate, approximates the full Index in terms of key risk factors and other characteristics. This may cause the fund to experience tracking errors relative to performance of the index.
